orders. - Calculate the total and the subtotal automatically. - Free to use with no restrictions. Version: 1.0.0.0 Updates:

System Requirements:

PC: i5-4590T 3.6GHz 8GB RAM DirectX 12 compatible video card Additional Notes: -
P.S. - Not really a glitch, but actually very annoying for new players to read a very annoying title. Also, the devs have said that they will change this title with all the new content. - Also, after playing the first 3 levels, I noticed that the final level doesn't end and then disappears, making it an endless loop. I can't find a glitch in this level,
